

AutoWash™

automatic plate washing

Optimized productivity and quality

- ▶ All plates washed in less than 4 minutes
- ▶ Print defects removed in less than 1.5 seconds
- ▶ Significantly reduced waste

Productivity — Quality — Profitability

Plate washing and the need to remove print defects causes significant downtime. Automatic plate washing optimizes efficiency, productivity and quality.

So Why AutoWash™?

Features

- Pre, during and post run plate washing
- Automatically configures for order
- Simultaneous washing of all plates in less than 4 minutes
- 1.5 second print defect removal
- Triple action deep cleaning (oscillation, rotation, vibration)
- Hi-speed power dry

Benefits

- Optimized productivity and quality
- Significantly reduces waste
- Plates washed ready for storage in less than 4 minutes
- Print defects removed with minimal waste
- Eliminates manual washing
