

AutoWash[®]

automated plate washing

Eliminate manual plate washing

- ▶ All plates washed in less than 4 minutes
- ▶ No-stop print defect removal in less than 1.5 seconds
- ▶ Eliminate operator intervention
- ▶ Maximize uptime

2021 AICC/BCN
Innovator of the Year

Productivity — Quality — Profitability

Plate washing and the need to remove print defects causes significant downtime. Automated plate washing optimizes efficiency, productivity and quality.

So Why **AutoWash**?

Features

- Auto pre, during and post print plate washing
- Automatically configures for order
- Simultaneous washing of all plates in less than 4 minutes
- 1.5 second print defect removal during production
- Dual action deep cleaning (rotation, vibration)
- Hi-speed power dry

Benefits

- Optimized productivity and quality
- Eliminates operator intervention
- Significantly reduces waste
